# Brief Description

textile network is the international industry magazine that targets the whole world of textiles and places a special emphasis on innovations in technology and fashion.

We target professionals and decision-makers from the entire textile chain – from the fibre to the finished product – and create a synergetic network for their companies. In addition to product news, case studies and company portraits, we offer industry know-how with editorial contributions from experts and background articles on specialist topics and trade fairs. We focus on industry-relevant and current topics such as sustainability, supply chain, digitalization, Industry 4.0, events and textile research.

Printed and as an e-paper, textile network is published four times a year in German with an English-language inside section. In our print editions, we focus on specialist topics and report on the latest news and innovations from the world of textiles.

A new addition to our portfolio are our two e-paper editions of textile network EXTRA, which provide our readers with detailed information on a specific specialist topic and thus offer additional added value.

Our websites [www.textile-network.de](http://www.textile-network.de) (German) and [www.textile-network.com](http://www.textile-network.com) (English) supplement the print and e-paper editions with daily reporting, and with our weekly textile network newsletter we offer a further information platform. Our trade magazine is also present on social media: visit us on LinkedIn, X or Instagram and stay informed.

textile network – we connect the industry!

**Printing and binding methods:** 4c offset printing (80 lpc-screen, PS0coated\_v3.icc) on double-sided multi-coated paper. Wire stitching or adhesive binding. For colour ads genuine proofs are necessary.

**Data creation and delivery:** Please send us your ads ready for publishing in one of the programs and formats mentioned above, if possible as PDF/X-4 data (Output Intent: PS0coated\_v3.icc) with 3 mm bleed. We are happy to provide you for InDesign PDF job options and color profiles for PDF creation. Binding proofs are desirable for colour advertisements.

Should it be necessary to edit other files or adapt the layout, we will have to charge you our cost price of 115.- EUR/hour.

Your data can be processed by us with the following programs:

- Adobe Acrobat Pro DC
- Adobe InDesign (Version CC)
- Adobe Illustrator (Version CC)
- Adobe Photoshop (Version CC)

Image data in original sizes requires a resolution of 300 dpi (min. 600 dpi for line drawings). Indexed, LAB and RGB image data are converted by an in-house generated separation curve into the CMYK mode (the colour space is modified). This can lead to colour deviations, for which we cannot assume any liability.

**Colours:** Bio-Printing inks (CMYK, special colours available on request.

**Proof:** When making the proof please consider that our printer works with standard PS0-ISO 12647-2 values both in the preparatory and in the printing stages. If you are unable to provide us with a binding colour proof or can only supply a digital colour printout, please note that your file will be printed in compliance with the PS0coated\_v3.icc. If you are interested, please contact Pargol Misofi (pargol.misofi@meisenbach.de, +49 951 861-195) who will also tell you the costs.

**Data storage:** Data will be archived. Unchanged rerun is generally possible. A data guarantee is, however, not assumed.

**Guarantee:** By sending incomplete or differing data (texts, colours or images) we do not assume any liabilities for the correct print. Faulty exposure caused by incomplete or flawed files, incorrect settings or incomplete information will be invoiced to the customer. This also applies to additional composition and reproduction work as well as the creation of flawed proofs.
